Tower Docks

Designer Series

Is it getting difficult to find help each season when it is time to put your dock in and out? A Tower Dock by On the Water Designs can be lifted & lowered by yourself or with a single helper. Enjoy your dock on your schedule!

Tower Docks are most suitable in water less than 8' deep and where fluctuation is minimal when a boat is tied to it. Muddy bottoms are not a problem but need to be managed properly to ensure easy removal.

Tower Dock solutions include a strong mounting point at shore as well as a solid winch point that holds the dock over the winter.

All tower components are hidden below the decking for the summer.

All Tower Docks Include:

- ✓ Hidden Tower Design
- ✓ 8' Towers include HD Tower Upgrade
- ✓ All Rigging Between Tower & Dock
- ✓ Foot Pads & Pole Caps
- ✓ Reinforced Frame & Connection Points
- ✓ 10 Year Welded Frame Warranty
